Key:			Calculation:																
Number = Supported the pro-growth position. The number indicates the points earned for that vote or action.			Points are tallied for all actions rated where the member was present and voting or otherwise could have taken an action (such as sponsoring a bill or signing a letter). After points are totaled, they are divided by the potential points a member could have earned by supporting the pro-growth position.																
A = Did not vote.			Six points are counted for a 100% in the Club for Growth's RePork card, 4 points for a score between 90% and 99% and 2 points for scores between 80% and 89%. Four points are marked for sponsoring bills that would in total reduce federal spending, as measured by the NTU Foundation BillTally report. To account for all votes that impact spending, taxes and significant regulations, 15 points are counted for an "A" grade in the National Taxpayers Union rating of Congress, 10 points for a "B+" and 5 points for a "B". Five points were awarded for signing a letter to President Bush pledging to uphold a veto of a fiscally irresponsible spending bill. Representatives who failed to vote as pledged did not receive credit for signing the letter. Two points were counted for sponsoring a bill to make the 2001 and 2003 tax cuts permanent. Finally, 10 points were counted if the member did not sponsor legislation that could lead to higher taxes on imports or other actions that could harm trade.																
P = Voted "Present."																			
"- " = Voted against the pro-growth position.																			
I = Ineligible to vote.

Key:			Calculation:															
Number = Supported the pro-growth position. The number indicates the points earned for that vote or action.			Points are tallied for all actions rated where the member was present and voting or otherwise could have taken an action (such as sponsoring a bill or signing a letter). After points are totaled, they are divided by the potential points a member could have earned by supporting the pro-growth position.															
A = Did not vote.			Six points are counted for a 100% in the Club for Growth's RePork card, 4 points for a score between 90% and 99% and 2 points for scores between 80% and 89%. Four points are marked for sponsoring bills that would in total reduce federal spending, as measured by the NTU Foundation BillTally report. To account for all votes that impact spending, taxes and significant regulations, 15 points are counted for an "A" grade in the National Taxpayers Union rating of Congress, 10 points for a "B+" and 5 points for a "B". Five points were awarded for signing a letter to President Bush pledging to uphold a veto of a fiscally irresponsible spending bill. Representatives who failed to vote as pledged did not receive credit for signing the letter. Two points were counted for sponsoring a bill to make the 2001 and 2003 tax cuts permanent. Finally, 10 points were counted if the member did not sponsor legislation that could lead to higher taxes on imports or other actions that could harm trade.															
P = Voted "Present."																		
"- " = Voted against the pro-growth position.																		
I = Ineligible to vote.

Key:			Calculation:												
Number = Supported the pro-growth position. The number indicates the points earned for that vote or action.			Points are tallied for all actions rated where the member was present and voting or otherwise could have taken an action (such as sponsoring a bill or signing a letter). After points are totaled, they are divided by the potential points a member could have earned by supporting the pro-growth position.												
A = Did not vote.			Six points are counted for a 100% in the Club for Growth's RePork card, 4 points for a score between 90% and 99% and 2 points for scores between 80% and 89%. Four points are marked for sponsoring bills that would in total reduce federal spending, as measured by the NTU Foundation BillTally report. To account for all votes that impact spending, taxes and significant regulations, 15 points are counted for an "A" grade in the National Taxpayers Union rating of Congress, 10 points for a "B+" and 5 points for a "B". Five points were awarded for signing a letter to President Bush pledging to uphold a veto of a fiscally irresponsible spending bill. Representatives who failed to vote as pledged did not receive credit for signing the letter. Two points were counted for sponsoring a bill to make the 2001 and 2003 tax cuts permanent. Finally, 10 points were counted if the member did not sponsor legislation that could lead to higher taxes on imports or other actions that could harm trade.												
P = Voted "Present."															
"- " = Voted against the pro-growth position.															
I = Ineligible to vote.
